1.1	Geography	1
1.2	Gender	2
1.3	Age	2
1.4	Past usage	3
1.4.1	of Chatting systems	3
1.4.2	of video streaming systems	4
1.4.3	of robots	4
1.5	Skills self-perception	5
1.5.1	in communication	5
1.5.2	in programming	6
1.5.3	in managing	6
1.5.4	in Organizing	7
1.6	General perception	7
1.6.1	Programming is boring	8
1.6.2	When I practise my programming improves	8
1.6.3	Compared to other students I am a good programmer	9
1.6.4	I wish I had more time for robotics at school	9
1.6.5	Girls enjoy programming less than boys do	10
1.6.6	I like what I program	10
1.6.7	Programming is more fun when it's in team	11
1.6.8	I'm interested in robotics	11
1.6.9	Robotics is difficult	12
1.6.10	Programming is difficult	12
1.6.11	I've learned a lot of unnecessary things preparing the challenge	13
1.6.12	My suggestions are taken seriously by other members of my team	13
1.6.13	I spoke to the teacher if I had a problem	14
1.6.14	I discussed with my teammates if I had a problem	14
1.6.15	I am pleased with the support I have received for the R2t2 mission	15
1.6.16	We have a nice, positive group environment	15
1.6.17	Robotics is a subject where students help each other	16
1.6.18	I was influencing decision taken in my team	16
1.6.19	All my suggestions were followed	17
1.6.20	I was taking initiatives in the group	17
1.6.21	I was not always asking my teammates their opinion in what I was doing	18
1.6.22	We splitted the work equally between the team members	18
1.6.23	Our team was noisy and disordely	19

1 Demographic Analysis

1.1 Geography

1.2 Gender

Gender data :

female	male
16	37

1.3 Age

Age data :

Min.	1st Qu.	Median	Mean	3rd Qu.	Max.
9.00	11.25	13.50	16.80	15.75	47.00

1.4 Past usage ...

1.4.1 of Chatting systems

1.4.2 of video streaming systems

1.4.3 of robots

1.5 Skills self-perception

1.5.1 in communication

1.5.2 in programming

1.5.3 in managing

1.5.4 in Organizing

1.6 General perception

1.6.1 Programming is boring

1.6.2 When I practise my programming improves

1.6.3 Compared to other students I am a good programmer

1.6.4 I wish I had more time for robotics at school

1.6.5 Girls enjoy programming less than boys do

1.6.6 I like what I program

1.6.7 Programming is more fun when it's in team

1.6.8 I'm interested in robotics

1.6.9 Robotics is difficult

1.6.10 Programming is difficult

1.6.11 I've learned a lot of unnecessary things preparing the challenge

1.6.12 My suggestions are taken seriously by other members of my team

1.6.13 I spoke to the teacher if I had a problem

1.6.14 I discussed with my teammates if I had a problem

1.6.15 I am pleased with the support I have received for the R2t2 mission

1.6.16 We have a nice, positive group environment

1.6.17 Robotics is a subject where students help each other

1.6.18 I was influencing decision taken in my team

1.6.19 All my suggestions were followed

1.6.20 I was taking initiatives in the group

1.6.21 I was not always asking my teammates their opinion in what I was doing

1.6.22 We splitted the work equally between the team members

1.6.23 Our team was noisy and disorderly
